
What the newcomer inherits (none inherits the instruction):

`control`	nobody replaced (seat 1 stays the instructed incumbent)
`lookalike`	price history; seat 0 replaced by a scripted seller that never reacts
`same_none`	nothing
`same_history`	price/profit history table
`same_notes`	outgoing seller's notes (PLANS/INSIGHTS), no table
`same_full`	history table + notes
`sib_* / oth_*`	history or full, newcomer is Qwen3-8B (sib) or gpt-oss-20b (oth)
`notes_* (P1c)`	fixed rewritten notes: rule + return / rule, no return / status only
